Print Pricing for personal digital files, film or restorations (effective 1/29/11)

Standard Prints

Ultrachrome and/or K3 inks are printed on acid free paper and provide excellent fade resistance. These prints should outlast traditional photos. Printing prices include minor PhotoShop work such as color optimization, red eye correction and clean up. Other sizes are available. Film or prints will incur a scanning charge. For portraits see portrait pricing, this includes normal PhotoShop work for portrait optimization such as blemishes.

For critical color purposes, a guide print is appreciated or a proof is suggested. Any questions please call.

Larger sizes are now available in Canvas, Fine Art and Luster Paper! Please call!
